

TOTAL
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE FIRST SIX MONTHS 2019

(unaudited)

1) Accounting policies

The consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and IFRS as published by the International Accounting Standards Board (IASB).

The interim consolidated financial statements of TOTAL S.A. and its subsidiaries (the Group) as of June 30 2019, are presented in U.S. dollars and have been prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting".

The accounting principles applied for the consolidated financial statements at June 30, 2019, are consistent with those used for the financial statements at December 31, 2018, with the exception of standards or amendments that must be applied for periods beginning January 1, 2019.

➤ ***First-time application of IFRS 16 "Leases"***

As part of the first application of IFRS 16 "Leases" as of January 1, 2019, the Group:

- applied the simplified retrospective transition method, accounting for the cumulative effect of the initial application of the standard at the date of first application, without restating the comparative periods;
- used the following simplification measures provided by the standard in the transitional provisions:
 - o exclusion of contracts that the Group had not previously identified as containing a lease under IAS 17 and IFRIC 4,
 - o exclusion of leases whose term ends within 12 months of the date of first application;
- recognized each lease component as a separate lease, separately from non-lease components of the lease (services);
- applied the two exemptions of the standard on short-term leases and leases of low-value assets.

In addition, the Group is currently analyzing the facts and circumstances and contractual terms of each lease agreement used in Joint Operations to determine whether the decision of the IFRS Interpretation Committee of March 2019 dealing with the recognition of lease liabilities in the context of unincorporated joint operations has an impact on its consolidated financial statements.

The impact of the application of this standard as at January 1, 2019 is \$5,698 million on fixed assets, \$(5,505) million on net debt and \$(193) million on other assets and liabilities. The weighted average incremental borrowing rate at the transition date is 4.5%.

The impact on fixed assets is broken down as follows:
(in M\$)

Right of use of buildings	2,278
Right of use of machinery, plant and equipment (including transportation equipment)	2,632
Other right of use	788
Total	5,698

2) Changes in the Group structure

2.1) Main acquisitions and divestments

➤ Integrated Gas, Renewables & Power

- On March 4, 2019, TOTAL and Novatek signed a definitive agreement for the acquisition of a 10% direct interest by TOTAL in Arctic LNG 2, a major liquefied natural gas development led by Novatek on the Gydan Peninsula, Russia.
- On March 15, 2019, TOTAL finalized the sale of 4% of its interest in the Ichthys liquefied natural gas (LNG) project in Australia to operating partner INPEX, reducing its interest in the project from 30% to 26%.

➤ Exploration & Production

- On April 1, 2019, Total acquired all the share capital of Chevron Denmark Inc. which holds a 12% interest in the Danish Underground Consortium (DUC), a 12% interest in Licence 8/06, and a 7.5% interest in the Tyra West pipeline. The acquisition increased TOTAL's operated share of DUC from 31.2% to 43.2%.

3) Adjustment items

Description of the business segments

Financial information by business segment is reported in accordance with the internal reporting system and shows internal segment information that is used to manage and measure the performance of TOTAL and which is reviewed by the main operational decision-making body of the Group, namely the Executive Committee.

The operational profit and assets are broken down by business segment prior to the consolidation and inter-segment adjustments.

Sales prices between business segments approximate market prices.

The profitable growth in the gas and low carbon electricity integrated value chains is one of the key axes of TOTAL's strategy. In order to give more visibility to these businesses, a new reporting structure for the business segments' financial information has been put in place, effective January 1, 2019.

The organization of the Group's activities is structured around the four followings segments:

- An Exploration & Production segment;
- An Integrated Gas, Renewables & Power segment comprising integrated gas (including LNG) and low carbon electricity businesses. It includes the upstream and midstream LNG activity that was previously reported in the EP segment;
- A Refining & Chemicals segment constituting a major industrial hub comprising the activities of refining, petrochemicals and specialty chemicals. This segment also includes the activities of oil Supply, Trading and marine Shipping;
- A Marketing & Services segment including the global activities of supply and marketing in the field of petroleum products;

In addition the Corporate segment includes holdings operating and financial activities.

Certain figures for the years 2017 and 2018 have been restated in order to reflect the new organization.

Adjustment items

Performance indicators excluding the adjustment items, such as adjusted operating income, adjusted net operating income, and adjusted net income are meant to facilitate the analysis of the financial performance and the comparison of income between periods.

Adjustment items include:

(i) Special items

Due to their unusual nature or particular significance, certain transactions qualified as "special items" are excluded from the business segment figures. In general, special items relate to transactions that are significant, infrequent or unusual. However, in certain instances, transactions such as restructuring costs or assets disposals, which are not considered to be representative of the normal course of business, may be qualified as special items although they may have occurred within prior years or are likely to occur again within the coming years.

(ii) The inventory valuation effect

The adjusted results of the Refining & Chemicals and Marketing & Services segments are presented according to the replacement cost method. This method is used to assess the segments' performance and facilitate the comparability of the segments' performance with those of its competitors.

In the replacement cost method, which approximates the LIFO (Last-In, First-Out) method, the variation of inventory values in the statement of income is, depending on the nature of the inventory, determined using either the month-end prices differential between one period and another or the average prices of the period rather than the historical value. The inventory valuation effect is the difference between the results according to the FIFO (First-In, First-Out) and the replacement cost methods.

(iii) Effect of changes in fair value

The effect of changes in fair value presented as adjustment items reflects for some transactions differences between internal measure of performance used by TOTAL's management and the accounting for these transactions under IFRS.

IFRS requires that trading inventories be recorded at their fair value using period end spot prices. In order to best reflect the management of economic exposure through derivative transactions, internal indicators used to measure performance include valuations of trading inventories based on forward prices.

Furthermore, TOTAL, in its trading activities, enters into storage contracts, which future effects are recorded at fair value in the Group's internal economic performance. IFRS precludes recognition of this fair value effect.

The adjusted results (adjusted operating income, adjusted net operating income, adjusted net income) are defined as replacement cost results, adjusted for special items and the effect of changes in fair value.

The detail of the adjustment items is presented in the table below.

Dividend

The Shareholders' meeting of May 29, 2019 approved the distribution of a dividend of €2.56 per share for the 2018 fiscal year and the payment of a balance of €0.64 per share to be distributed after the deduction of the three interim dividends of €0.64 per share that had already been paid. Given the decision made by the Board of Directors on February 6, 2019 not to propose to the Shareholders' meeting the renewal of the scrip dividend option beginning with the payment of the final 2018 dividend, the final 2018 dividend has been paid exclusively in cash.

5) Financial debt

The Group has issued bonds during the first six months of 2019:

- Bond 3.455% 2019-2029 (USD 1,250 million);
- Bond 1.660% 2019-2026 (GBP 500 million);
- Bond 0.696% 2019-2028 (EUR 650 million);
- Bond 1.535% 2019-2039 (EUR 650 million);
- Bond 0.166% 2019-2029 (CHF 200 million).

The Group reimbursed bonds during the first six months of 2019:

- Bond 4.875% issued in 2009 and maturing in January 2019 (EUR 1,200 million);
- Bond 2.125% issued in 2014 and maturing in January 2019 (USD 750 million);
- Bond 4.125% issued in 2014 and maturing in March 2019 (AUD 150 million);
- Bond 4.180% issued in 2009 and maturing in June 2019 (HKD 750 million);
- Bond 2.100% issued in 2014 and maturing in June 2019 (USD 1,000 million);
- Bond USD 3-month Libor + 35 basis points issued in 2014 and maturing in June 2019 (USD 250 million);
- Bond 3.750% issued in 2014 and maturing in June 2019 (AUD 100 million).

The Group's financial debt increased by \$5,555 million following the first application of IFRS 16 as at January 1, 2019. Impact on net debt included a sub lease financial asset of \$50 million and resulted in an increase of \$5,505 million.

6) Related parties

The related parties are principally equity affiliates and non-consolidated investments.

In March 2019, the Group signed final agreements for the acquisition of a 10% direct interest in Arctic LNG2 with Novatek, in which TOTAL holds an interest of 19.40%. For the period ending June 30, 2019, the Group recognized its share of the net income generated by this transaction in Novatek's financial statements, except for the gain on disposal that has been eliminated.

7) Other risks and contingent liabilities

TOTAL is not currently aware of any exceptional event, dispute, risks or contingent liabilities that could have a material impact on the assets and liabilities, results, financial position or operations of the Group.

FERC

The Office of Enforcement of the U.S. Federal Energy Regulatory Commission (FERC) began in 2015 an investigation in connection with the natural gas trading activities in the United States of Total Gas & Power North America, Inc. (TGPNA), a U.S. subsidiary of the Group. The investigation covered transactions made by TGPNA between June 2009 and June 2012 on the natural gas market. TGPNA received a Notice of Alleged Violations from FERC on September 21, 2015. On April 28, 2016, FERC issued an order to show cause to TGPNA and two of its former employees, and to TOTAL S.A. and Total Gas & Power Ltd., regarding the same facts. TGPNA contests the claims brought against it.

A class action launched to seek damages from these three companies, was dismissed by a judgment of the U.S. District Court of New York issued on March 15, 2017. The Court of Appeal upheld this judgment on May 4, 2018.

Yemen

Due to the security conditions in the vicinity of Balhaf, Yemen LNG, in which the Group holds a stake of 39.62%, stopped its commercial production and export of LNG in April 2015, when it declared Force Majeure to its various stakeholders. The plant is in a preservation mode.

10) Post-closing

On July 10, 2019, TOTAL announced the signature of an agreement to divest several UK non-core assets to Petrogas NEO UK Ltd. The overall consideration for this deal amounts to 635 million dollars with an effective date of January 1, 2019. The transaction remains subject to approval from the relevant authorities and is expected to close in December 2019.
